

## OEC develops parts ordering solutions for the global automotive industry.

Our innovative technologies are used throughout North America and have expanded into international markets. Using agile methodologies, our teams utilize the Microsoft stack to create software solutions that help auto manufacturers and dealerships sell more original equipment parts. Owned by Ford and GM, OEC still has a small company feel. Recognized as a Top Workplace in Ohio and Northeast Ohio Tech Company of the Year for 2015, OEC provides associates with 20 days of paid time off, a free smartphone, on-site fitness center and cafeteria and a casual work environment filled with fun activities!

### We're excited to see you at CodeMash and have lots of giveaways this year!

Come visit our booth for a chance to win:

- Self-Balancing Scooter
- 3D Doodler Pen
- Nest Thermostat
