Full Spectrum of Technology Services

IT CONSULTANTS	CONTRACT-TO-HIRE AND FULL-TIME IT STAFFING	LONG-TERM PROJECT CONSULTANTS*	MANAGED IT SERVICES	IT SOLUTION CONSULTING
With a database of over one million IT consultants with real-world technology experience, we are able to quickly provide you with the skilled candidates you need to help meet your project staffing requirements.	Our innovative Company-In recruitment process can help you to accelerate your hiring timeline and reduce the costs associated with staffing open positions. We handle virtually the entire hiring process for you, from recruiting and evaluating to negotiating compensation and facilitating the final offers.	Our salaried professional service, a team of IT consultants who work full-time for Robert Half Technology, comprises technology experts who are available for your longer-term IT projects when you need optimum productivity without disruption to your own workforce.	We have the ability to deploy teams for large-scale projects regionally, nationally and globally, including: PC Refreshes, OS Upgrades, Help Desk/Deskside Support Outsourcing and QA Testing.	We deliver a joint solution in collaboration with Protiviti to offer subject-matter experts who have experience providing highly complex, deliverables-based consulting using their proprietary methodology and tools.

*Available only in the United States.
