❖ Telerik DevCraft™

YOUR COMPLETE
.NET TOOLBOX

At a Glance

Telerik® DevCraft collection is a comprehensive .NET toolbox offering more than 500 UI controls for HTML5, Xamarin.Forms and all .NET technologies—plus, productivity, code quality, reporting and data access tools.

What's Included

UI for Web, Desktop and Mobile
Build stunning applications that perform flawlessly on any browser and device with UI controls for:
- ASP.NET AJAX
- ASP.NET MVC
- Silverlight
- Windows Phone and Windows Universal
- Xamarin
- WPF
- WinForms

More than 500 UI controls cover thousands of scenarios straight out-of-the-box.

HTML5 Framework
Build modern web and mobile applications with HTML5 and JavaScript.

Use 70+ responsive jQuery-based UI widgets, an MVVM framework, customizable themes, templates and much more. Complete with cross-browser compatibility, standards compliance and touch-device support.

Code Quality and Productivity Tools
Get higher productivity and better code powered by Telerik Just* tools. Take advantage of:
- Code analysis and refactoring Visual Studio extension
- Mocking framework for easier unit testing
- 2-in-1 performance and memory profiler

.NET Data and Reporting Tools
Create interactive ad-hoc reports for your web, desktop and cloud apps with Telerik Reporting. Generate the data access layer for your applications in just a few clicks with Telerik Data Access.

Key Benefits

Most Comprehensive .NET Toolbox
Telerik DevCraft collection includes all Telerik .NET products under a single license.

Unmatched Value
Get up to 17 products for the price of two with the DevCraft bundle.

Tried and Tested
130,000 customers rely on the DevCraft bundle to build high-performance applications across all industries and businesses.

Aggressive Release Schedule
With 3 major releases per year and numerous minor ones, you get all the latest improvements sooner rather than later.

The Largest Third Party .NET Community
The Telerik community consists of over 1,200,000 community members, more than 900,000 forum posts, and 700 new posts per week.

For Experts and Novices Alike
DevCraft products offer powerful customization capabilities for the .NET pro, coupled with ease-of-use for relative beginners.
