- ColdFusion

Outcomes

- Superior alignment of IT and business goals
- Flexibility to meet evolving business needs
- High-performance teams
- Process improvements
- Lower total cost of ownership
- Enhanced operational efficiency
- Faster time to market
- Reliable system performance
- Higher quality deliverables
- Real-time visibility
- Initiatives completed according to time, budget and quality targets
- Improved customer satisfaction

How we partner with you

We help your business stay competitive by addressing key gaps related to people, projects and functions. Our Client Engagement Model is collaborative, allowing us to understand where you want to go, evaluate what you want to own and control along the way and fill in where you need us.

| 1 ANALYZE	2 SOLUTION	3 ORGANIZE	4 MOBILIZE	5 IMPROVE
Stay relevant. Ensure service suite is relevant to external industry trends and business drivers.	**Know what's needed.** Thoroughly understand needs; calibrate solutions and delivery model accordingly.	**Plan the work.** Build a comprehensive and quality-focused plan to achieve desired outcomes.	**Work the plan.** Implement solution leveraging the best resources and delivery models.	**Raise the bar.** Realize ROI while continually improving how work gets done.

The value we bring

We partner with thousands of clients around the globe, helping them achieve their business targets better, faster and more cost-effectively. This extensive experience enables us to provide practical perspectives on what works, what doesn't and what's emerging in IT. Our Application Development Services are built based on our unique perspectives and are proven to work where it matters most—in practice.

Quality focused

We have supported hundreds of application development engagements while consistently delivering high-quality outcomes. By utilizing coding standards, architecture and design best practices, our applications offer a flexible foundation for future growth, security and ease of maintainability.

Customized solutions

Unlike other large, global outsourcers, our solutions are calibrated based on specific client needs. Our practice is well-versed in a variety of methodologies including Agile, XP, Rational Unified Process (RUP), Scrum, Waterfall and Timeboxing. We tailor our approach based on the methodologies, delivery models and resource management models that best address your unique environment and business goals.

Core expertise

We can deliver full turnkey solutions, allowing you to concentrate on your core business. Our experienced software engineers have vast experience in addressing industry-specific challenges and are competent in legacy applications as well as a wide range of emerging technologies. Additionally, our application development teams possess years of experience working together on client engagements. We understand how to get work done and how to work collaboratively to meet business goals.

Sound methodologies

Our proprietary methodology focuses on the rapid, evolutionary and periodic delivery of tested, working software that contains completed business requirements. This iterative approach allows for immediate feedback to ensure the process continually delivers business value.

Delivery excellence

TEKsystems' project management and program governance organizations leverage best practices on methodologies, process standards and software engineering to ensure consistent project success. These groups also continuously monitor industry trends, as well as lessons learned, to incorporate a continual flow of best practices into our project management and governance processes.
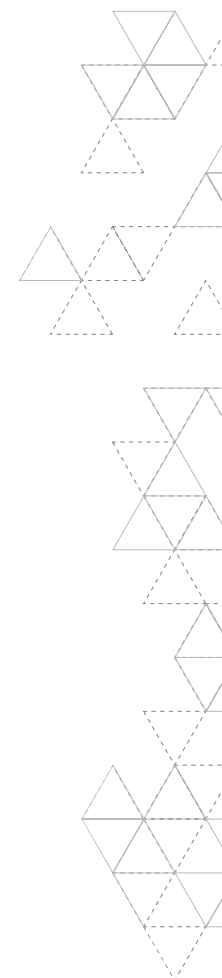

Scalable resources

In addition to our full-time application development practice staff, our relationship with TEKsystems Staffing Services enables us to quickly scale with qualified resources and seamlessly support ebbs and flows in work volume or scope.
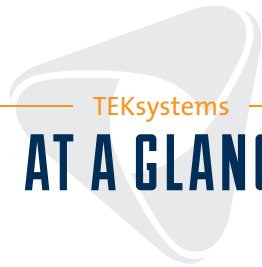

Cost competitive

We lower internal application development costs by offering solutions that are process driven, efficient and scalable. Additionally, our global delivery capabilities and flexible resource models ensure we fit your budget without sacrificing quality.

Accountable partnership

Your business is important to us and we are committed to partnering with you to deliver great outcomes. You can rely on us to perform with the highest standards of competence and character, doing what we say we will and standing by our results
